PROMOTILE THREE

MEGA VIEW™

3MM FRONT SERVICE DIRECT VIEW LED PANEL

DIRECT WALL-MOUNTABLE

The revolutionary Promotile Series features direct wall-mounting capabilities designed for the US market. The built-in strut system makes this panel easy to install and maintain. This intelligent design includes multiple access ports to carry signal and power. With no need for rear access, this system can be mounted virtually anywhere indoors.

INTUITIVE CONTROL OPEN API

Three methods of control are available - from simple (one input and one output) to advanced (multiple inputs to one display) and even more elaborate (16 inputs to 16 displays or large systems with multiple layers). Pairing your system allows you to map out images and manage layers. The open API allows for integration with many other integration control system.

SLIM DESIGN

Using the imperial system, designing your display is straightforward with each panel sized close to 1' X 4' (11.81" X 47.24"). The slim design is ideal for a diverse range of installations. It allows for the creation of configurations that fit numerous formats, including banner settings.

COMPLETELY FRONT-SERVICEABLE

The front serviceable design allows you to easily service the system and handle each component, reducing the risk of damage.

3MM PIXEL PITCH

Revel in the MEGAVIEWing experience with a 3mm pixel pitch and seamless image quality.

PROMO TILE THREE

MEGA VIEW™

**PART NUMBER**   MV-4153

MODULE

PIXEL PITCH	3MM
LED TYPE	SMD 1010 3-in-1 Black Face LED
RESOLUTION	100X100 Per Module; 4 Modules Per Panel (Any Position), Direct PCB Mounting, No Wiring Harness for Signal
MOUNTING	Magnetically Mounted Modules (Require vacuum tool to properly remove)
CONNECTION	Dual Connection allowing for one type module for every position

PANEL/TILE

|	
PANEL FRAME	Aluminum Casted end-caps with aluminum extrusions
PANEL	Width: 1200MM (47.24") Height: 300MM (11.81")
RESOLUTION	Width: 400 Height: 100 Total: 40000
REFRESH RATE	3840H; Ideal for broadcast or where high refresh rate is required
MOUNTING	Proprietary Direct Wall Mounting: a multi-hole array for easy wall mounting is built into the panel structure diagnosis
SERVICEABILITY	Panel is completely front serviceable. LED modules are removable from the front and use no screws. Modules are magnetically mounted, power supply and all electronics are serviceable from the front.

CONTROL

CONTROL TYPE	MV Display Control: proprietary control system redundancy and calibration plus system diagnostics
VIEWING ANGLE	H: 160°/V: 140°
CERTIFICATIONS	ETL
WEIGHT	13lbs
IP RATING	IP 20 Indoor Use
CONNECTOR	Power Con-Like Connector
CONNECTOR	RJ45
POWER	1.24 AMPS	144W @121V
WARRANTY	3 years standard warranty. Extended warranties available only at time of purchase.
